ECONO FROST®

REFLECTIVE NIGHT COVERS

Supermercados GRANDE

Payback Analysis of Econofrost Night Covers

Econofrost Night Covers were installed on May 6th 2008. The data and results were observed and recorded by the utility records kept by the Supermercados Grande Accounting Department.

The total daily reduction in energy being consumed was 636.20 Kw.
The KwH rate is $0.15.

Total Daily Savings	**$95.43**
Total Monthly Savings	**$2,862.90**
Total Annual Savings	**$34,831.95**
Total investment (Product and installation)	**$21,087.26**
Return on investment = 7.4 months!	

With such results, Supermercados Grande are now proposing to install Econofrost night covers in their remaining 28 stores. With a total investment of $632,617.80 to retrofit all stores they will realize:

Savings of $1,010,126.55 a year!
Return on investment = 7 months time.
